

Ohio Department of Health director Dr. Amy Acton signed two new orders Friday (May 29<sup>th</sup>), one extending the closures of most indoor and outdoor entertainment and recreation facilities through July 1.

That extends by a month the closures of auditoriums, stadiums, arenas, concert or music halls, parades, fairs, festivals, carnivals, amusement and theme parks, water parks, aquariums, zoos, museums, arcades, children's play centers and playgrounds.

Acton also signed an order removing a restriction on sales of spirituous liquor to out-of-state residents that had been imposed April 13 in certain Ohio counties — mostly along the Pennsylvania line — to prevent the spread of COVID-19.
