

Grade Waivered Players

The OVR team roster system automatically identifies any team with a Grade Waivered player on it. The SportsEngine system does not. Instead, as you build your team rosters in SE, you will see a warning icon next to any player who is too old for that team's age. If the team is an American or Regional team, the OVR allows the player to still participate with their classmates.

The team cannot participate at any age legal tournaments like National Qualifiers (except Select Division), Bid Play-In or Bid Tournament. If you are planning on participating at a non-OVR tournament, check with that tournament director to see if they allow grade waived players.

To override the SE warning, the OVR Office must log into to SE and Approve of the exception. When you have completed your rosters in SE, please complete the Grade Waivered Template:

[https://www.ovr.org/docs/Grade Waivered Template.xlsx](https://www.ovr.org/docs/Grade%20Waivered%20Template.xlsx)

You can put all of your grade waived players on one spreadsheet.

Email it to: Herbert@ovr.org. Please allow 48 hours for processing. We will send a note back when we have completed the request.
