

Tuesday March 31, 2020 – USA Volleyball communicated the following to Ohio Valley Region Administration; the announcement can be seen in its entirety on the USAV website:

“USA Volleyball is extending the elimination of sanctions for **all USA Volleyball activities (including but not limited to events, practices, team activities, individual training sessions or anything covered by USA Volleyball insurance) through April 30, 2020**. USA Volleyball is monitoring the situation daily and will continue to provide updates on a regular basis.

“USA Volleyball has been asked by local clubs whether such ban applies to club activities covered under the club’s own (non-USA Volleyball) insurance. In these situations, USA Volleyball strongly encourages all member clubs and coaches to adhere to USA Volleyball’s policies. However, should a club decide to voluntarily disregard those policies and assume all risks associated therewith, we recommend that the club adhere to CDC; local, state and federal guidelines and recommendations when deciding whether or not to host practices or individual training sessions. If a club does host practice or individual training sessions, those activities would be considered a non-sanctioned activity by USA Volleyball and thus NOT covered by USA Volleyball insurance.

“The health and welfare of our membership, volleyball families and fellow citizens is our primary concern in all decisions we are making during these uncharted times.”

Please continue to access the OVR website for the latest updates from the OVR and USAV.

Stay safe and look out for each other; I want to see all of you on the court very soon!

Bob Price
Commissioner
Ohio Valley Region – USA Volleyball
