

Hello All,

Hope this finds you well. Just a quick reminder that the USAV membership renewal process is now available. You should have received an email from Al Herbert with instructions. This will be a NEW process this season -- we now register through SportsEngine instead of Webpoint AND, your membership fee is split into two charges this year -- one for USAV (\$20) and one for OVR (\$42); still the same \$62 fee as last season, just divided into two payments (which must be made at the same time). If you require a background screen this year, that is an additional separate fee. You can check your OVR account to see if your background screen expires this October 31st. The background screen fee is \$31, which is good for two seasons.

I realize & understand that some of you may be waiting to see what the OVR-USAV season will look like before registering. Trust that we are anticipating a season and we're moving forward with those plans. We expect things will look/feel different this year, but some volleyball will be happening, barring a significant change that prevents it!

If you have questions about the registration process and SportsEngine, please reach out to Al Herbert (herbert@ovr.org). Any other specific questions about officiating should be directed to me.

I'll be providing some additional notes via email today.

Best,

Brian Hemelgarn
OVR Referees' Chair
