

## OVR Officiating Memo: USAV Training/Education Websites December 23, 2014

Referees:

Just to keep everyone clear with the various websites that USAV uses for training/education materials, here's a recap so that you can keep them straight:

Webpoint – <https://webpoint.usavolleyball.org/>

- USAV membership database (process new membership registration, renew membership, view all membership data, club affiliation, roster information, officials' certifications, coaching education certifications, background screening information)
- Register for regional clinics (in-person clinics or through USAV Academy, as determined by the Region)
- Register for national clinics (e.g. IMPACT On-Demand)
- Update personal information

VRT – [www.VolleyballRefTraining.com](http://www.VolleyballRefTraining.com)

- Referee and scorer chair resource pages
- Commissioner log-in site for commissioner (RVAA) resource page
- National-level referee clinic registration
- All USAV training modules for officials
- Free navigation
- NO tracking of who viewed any material
- Great for refreshing any material viewed on the Academy without having to view the entire module
- Certification information for all levels of officials
- DCR and rule interpretations – to view or order
- Officials Commission contact information
- Officiating opportunities
- Officiating resources
- Officiating news and information
- Tips to better yourself as an official

The Academy – <https://USAVolleyballAcademy.org>

- Content to be taken for credit
- Must register in Webpoint to access content
- Completion populates into Webpoint
- Certificates provided for completed curricula in completed courses for each registered member

I hope that helps!

Brian Hemelgarn  
OVR Referees' Chair
